

Introduction to E-Prime

Outline

- Linear Execution
- Cueing Task
- .es, .ebs & .edat
- Show-off: What can you do with the data

Linear Execution

Start

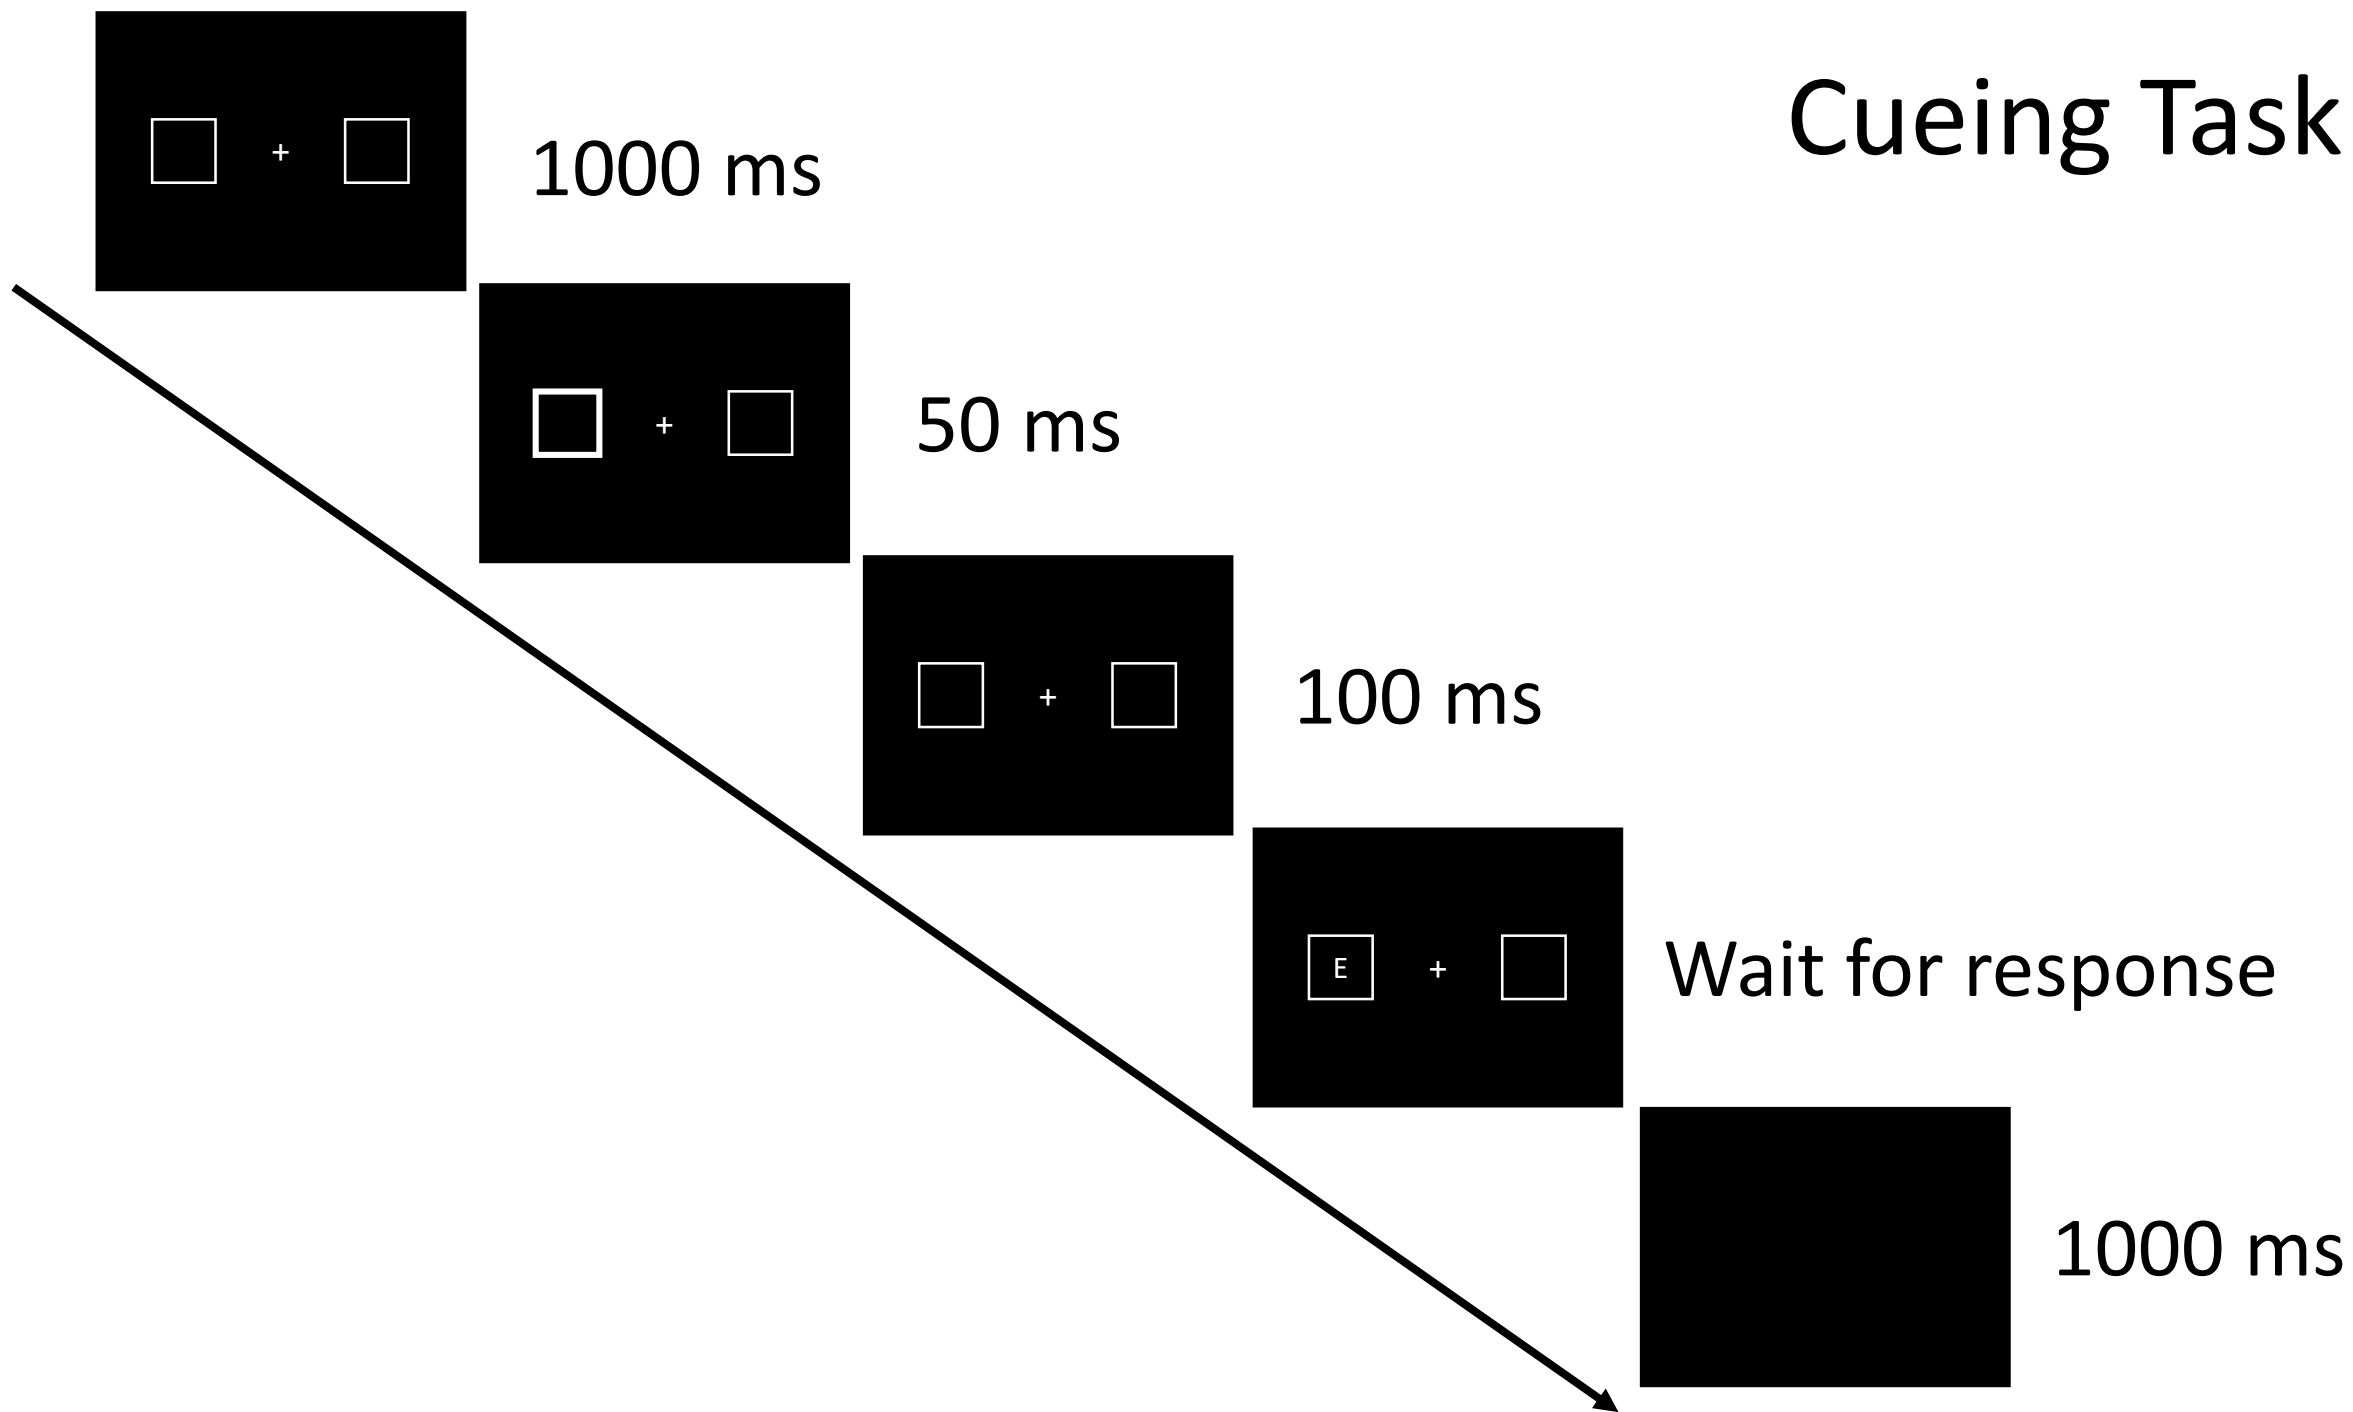

End

Linear Execution

Drag and drop the object.

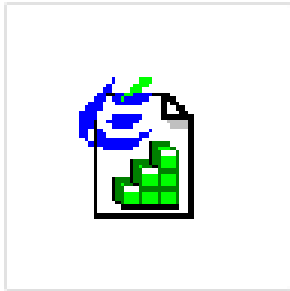

Cueing Task

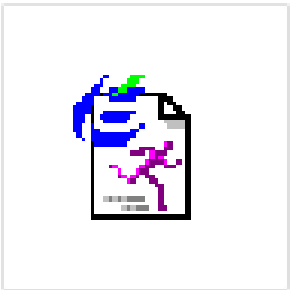

.es, .ebs & .edat

One must translate the .es file into .ebs to run the experiment.

CueingTask.es

- .es: 'human-readable' script

CueingTask.ebs

- .ebs: 'machine-readable' script

.es, .ebs & .edat

Two types of data file:

CueingTask-1-1.
edat

- .edat: complete data

CueingTask-1-1.
txt

- .txt: ongoing data

What can you do with the data
